SDEV 270 - Workforce Preparation: Microsoft Software Development Fundamentals MTA Certification

PREREQUISITES: [DBMS 110 - Introduction to Data Analytics](#) and [SDEV 153 - Website Development](#) and ([SDEV 200 - Software Development using Java](#) or [SDEV 210 - Software Development using Visual Basic in the .NET Framework](#) or [SDEV 220 - Software Development Using Python](#) or [SDEV 230 - Software Development using C++](#) or [SDEV 240 - Software Development Using C#](#))

PROGRAM: Software Development

CREDIT HOURS MIN: 1

LECTURE HOURS MIN: 1

DATE OF LAST REVISION: Spring, 2017

The workforce preparation course is focused on the Microsoft Software Development Fundamentals certification. Students can use this course as preparation leading to the certification, for keeping the certification up to date, or as review as they work forward into further Microsoft or other software development or programming certifications. The preparation is designed to be a continued validation of one's expertise and a tool to expand one's skillset. Preparation includes practice tests and assignments based on the certification exam. Students are required to demonstrate course objectives through the appropriate certification exam preparation materials and completion of the appropriate certification exam at the end of the course. The fee for the certification exam is assessed upon enrollment in the course.

MAJOR COURSE LEARNING OBJECTIVES: Upon successful completion of this course, the student will be expected to:

1. Apply skills necessary to prepare for workforce employment.
2. Examine the objectives of the certification objectives.
3. Plan the approach to certification exam taking skills.
4. Explore the skills required in preparation for the workforce and the certification exam.

COURSE CONTENT: Topical areas of study include -

- Skills evaluation
- Skills development
- Workforce needs
- Certification preparation
- Certification objectives

CERTIFICATION ASSOCIATED COURSE:

All students enrolled in this course are required to take the corresponding certification exam at some point on or before the last day of the course. The seat, allowing the student to take the certification exam, was paid for by the student as consumable fee at the beginning of the course, along with tuition. If the student does not take the exam, the student will earn an "F" for the class. If the student takes the exam and does not pass the exam, the highest grade possible in the course is a "B." However, if the student passes the exam, it will account for 20% of the total course grade. Students will be

assessed the current fee in order to take the examination. This consumable fee will be automatically encumbered upon enrollment in the course.

CERTIFICATION/LICENSURE DISCLAIMER:

Ivy Tech cannot guarantee that any student will pass a certification or licensing exam. Your success will be determined by several factors beyond the instruction you are given in the classroom including your test-taking skills, your willingness to study outside of class, and your satisfactory completion of appropriate practice exams. Certification exam questions are drawn from databases of tens of thousands of possible questions and no two people are asked exactly the same progression of questions. Therefore, a thorough understanding of the subject matter is required. The goal of Ivy Tech in providing a certification exam studies class is to assist you in understanding the material sufficiently to provide a firm foundation for your studies as you prepare for the exam.
