

Workforce Preparation - AWS Cloud Practitioner

2023-2024
Catalog

[ARCHIVED CATALOG]

SVAD 151 - Workforce Preparation - AWS Cloud Practitioner

PREREQUISITES: SVAD 150 Cloud Foundations

PROGRAM: Cloud Technologies

CREDIT HOURS MIN: 1

LECTURE HOURS MIN: 1

DATE OF LAST REVISION: Fall 2022

The workforce preparation course is focused on the AWS Cloud Practitioner certification. Students can use this course as preparation leading to the certification or keeping the certification up to date. The preparation is designed to be a continued validation of one's expertise and a tool to expand one's skill set. Preparation includes practice tests and assignments based on the certification exam. Students are required to demonstrate course objectives through the appropriate certification exam preparation materials and completion of the appropriate certification exam at the end of the course. The fee for the certification exam is assessed upon enrollment in the course.

MAJOR COURSE LEARNING OBJECTIVES:

1. Apply skills necessary to prepare for workforce employment.
2. Examine the objectives of the certification.
3. Plan the approach to certification exam taking skills.
4. Explore the skills required in preparation for the workforce and the certification exam.

COURSE CONTENT: Topical areas of study include -

- Skills evaluation
 - Skills development
 - Workforce needs
 - Certification preparation
 - Certification objectives
